Call to Action

Boutique Volunteers Needed

Our Boutique is a special place where moms are supported with dignity and care. Volunteers help organize baby clothing and essentials that are gifted to women during their mentoring appointments. If you have a heart to serve and a little time to give, we would love to welcome you to our team. supportyoumedical.org/volunteer

In the clinic

What Our Patients Are Saying

"What did you like best about your visit?"

- "I felt that I was in a safe environment and was well heard."
- "Everyone is so nice and welcoming."
- I liked feeling comfortable, and the prayer felt warm."
- I liked the care and respect I was treated with the whole time."

Patient ratings and comments

- "The medical staff explained things in a way that I could understand well."
- "I was involved in making decisions about my health."
- "The staff listened carefully and respectfully to what I had to say."
- "When I arrived, the reception staff greeted me warmly and courteously."
- "I was well informed about any necessary follow up care."

Community Open House | 04.30.26

Join us and take a tour of the center. This is not a fundraiser, just a time of connection, celebration, and gratitude for the work God is doing through You Medical in our community.

During your visit, you'll have the chance to:

- Take a guided tour of the center
- Meet staff and volunteers
- Hear how lives are being impacted
- Learn how to get involved
- Eat some great food

HELP WITH SPREADING THE WORD!! DIRECTIONS ON THE BACK PAGE!

INSIDE THIS MONTH'S ISSUE:

CEO MESSAGE, VISION FOR 2026:

Our refined mission and vision are guiding every decision as we continue to serve our community.

2025 YEAR IN REVIEW:

A snapshot of God's faithfulness through lives impacted, milestones reached, and hope restored.

BOUTIQUE VOLUNTEERS NEEDED:

Help support families behind the scenes by organizing, washing, and managing baby boutique inventory.

A MESSAGE FROM CEO, KRISTI DAVENPORT

Vision for 2026

As we look toward 2026, your support is allowing You Medical to deepen the care we provide. Because of you, we have strengthened our clinic staff and expanded medical training, allowing us to operate with greater medical credibility and excellence as a Pregnancy Medical Clinic. Year over year, since becoming a medical clinic, we have seen an increase in abortion-vulnerable clients and urgent walk-in needs for pregnancy testing and ultrasound services. In response, we have intentionally reduced STI testing and treatment, reserving those services only for the most vulnerable with no other access, so we can remain fully available when pregnancy decisions are most time sensitive.

As a medical clinic, You Medical operates under the supervision of a licensed physician, with pregnancy-related services provided by trained medical staff following standard medical protocols. Pregnancy testing is performed in-house as a medical procedure, and viable pregnancy is confirmed through diagnostic ultrasound reviewed by a physician. This model allows us to care for each patient holistically addressing physical, emotional, relational, spiritual, and material needs within a confidential, professional medical setting. All services are provided at no charge, made possible entirely through donor generosity. So far last year, more than 68 babies have been saved. It will be exciting to see how we see that number

increase as we collect outcomes and are able to give a final total at our Gala in September. As a Christian organization, we also offer the true and lasting hope of Christ. In 2025 alone, the gospel was shared 333 times (a 61% increase since 2024), with 32 women and men choosing to follow Christ. Providing medical care with excellence opens doors for trust, and trust opens hearts to truth. While our medical team affirms life and provides clear medical guidance, we never use coercion or manipulation. Instead, every appointment is marked by dignity, compassion, and respect allowing women and families to encounter both life-affirming care and the hope that only Jesus can give.

In 2026, our focus is readiness and being medically prepared, fully staffed, and spiritually grounded to meet women and families at the exact moment they need care. We have open positions for medical staff including Registered Nurses, Licensed Practical Nurses, and Registered Diagnostic Medical Sonographers. If you are a medical professional or know one, please feel free to contact us or pass on our information to learn more about joining our amazing team.

Next month, I will share about the need to expand useful space in our building to meet the needs of increasing appointments.

You can save unborn babies from abortion 365 Days a Year!

What does it take to save a baby from the tragedy of abortion? As little as a dollar a day! You Medical is looking for heroes like you who will stand up and fight for life... 365 Days a Year! Your commitment of \$1 a day or more this year will give the gift of a future to unborn babies and their parents.

Scan this QR code to help save a life.

2025: Year-In-Review

The Gospel was shared **333x** **61%** increase from 2024.

1,656 appointments scheduled

Online scheduling increased from **165** appointments to **265** appointments scheduled online.

678 parent mentor classes attended by both moms and dads.

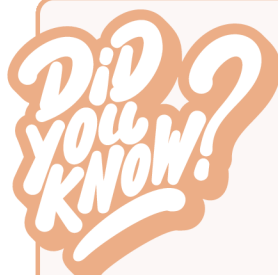

Over **13,400** Material support items were given away to parent mentor participants.

Total babies saved is currently at **68** that number will increase over the next 9 months as we learn pregnancy outcomes.

139 Ultrasounds completed, supporting life-affirming decision-making.

Have you ever wondered what someone could do if they regretted taking the abortion pill and were looking for help?

Today, more than 60% of abortions are carried out using abortion pills, also known as medical or self-managed abortions. Research shows that over half of women who choose abortion report feeling pressured into that decision, often leaving them isolated, confused, and searching for support afterward.

There is a time-sensitive, evidence-based option called abortion pill reversal. When administered promptly, licensed medical professionals can use the natural hormone progesterone to counteract the effects of the abortion pill. Studies show that abortion pill reversal has saved approximately 64-68% of pregnancies when treatment begins in time, offering women a second chance to choose life for their baby.

Help is available immediately. Medical professionals are on call nationwide, and anyone can refer a woman for confidential support through AbortionPillReversal.com

News & Events

Understanding Washington's Safe Haven Law

The Safe Haven law provides a life-saving option for parents who feel they cannot care for a newborn. Under this law, a parent may anonymously and safely surrender an unharmed infant within 72 hours (three days) of birth without facing criminal charges. Washington's Safe Haven law identifies several designated drop-off locations where a newborn can be left peacefully and legally, as long as a qualified person is present:

- Any hospital emergency department in the state – typically staffed 24/7
- A staffed fire station during open hours
- A staffed rural health clinic during open hours

Read more about this at: <http://www.dcyf.wa.gov/safety/safety-newborn-law>
